IDEAL by Asa Dental

GENTLE & PRECISE

ATRAUMATIC EXTRACTION
Remove the tooth with confidence through an atraumatic luxation

ERGONOMIC DESIGN
Take advantage of the handle design to apply only the necessary force and have total control

SHAPE AND SIZE
Operate with the most suitable tool for the case at hand, choosing between tips of different shapes and sizes

Dental care is constantly evolving to introduce those techniques and tools that ensure greater customer satisfaction. In case of invasive interventions, such as the removal of a tooth, outcome and patient satisfaction are closely linked to minimizing trauma. This is exactly the task that Asa Dental's new IDEALs perform precisely and effectively.
The IDEALs are atraumatic luxating instruments which, thanks to the sharp tip, gently and precisely cut the periodontal ligaments, saving unnecessary soft tissue injury and preventing fractures in the operation of extracting the tooth from the alveolus.

ASA DENTAL

IDEAL Periotomes

With their sharp tips, these periotomes are designed to gently cut periodontal ligaments, preserving the surrounding gum and the bone.
To minimize the risk of fracture, the tooth is dislocated only after a careful expansion of the alveolus using the precise movements that the ergonomic handle allows.

0280-3R
Luxating Elevator,
Straight #3, Silver, 3 mm

0280-2R
Luxating Elevator,
Straight #2, Emerald, 2 mm

ASA DENTAL

0280-5R
Luxating Elevator,
Straight #5, Golden, 5 mm

0280-3C
Luxating Elevator,
Curve #3, Jet Black, 3 mm

IDEAL Periotomes

S0280-4

IDEAL Selection is more than a simple set of instruments. Cherry-picked by Asa Dental, the 4 included periotomes help you confidently overcome any obstacle typically associated with surgical extractions. The design and manufacturing of each instrument make luxation atraumatic to minimize treatment trauma and bleeding.

0280-5C
Luxating Elevator,
Curve #5, Jet Black, 5 mm

IDEAL Dual Edge Periotomes

These periotomes have a dual edge tip that facilitates penetration and reduces the risk of the instrument slipping. For this reason, they are particularly suitable in case of difficult extractions or broken teeth.

0280-5DF
Dual Edge Luxating Elevator,
#5, Gold, 5 mm

0280-3DF
Dual Edge Luxating Elevator,
#3, Silver, 3 mm
